

## Innovation Exhibition Rubrics

Criteria	Excellent	Good	Fair
<b>Innovative Idea and Creativity</b>	The project demonstrates exceptional creativity and innovation. It presents a novel solution to a problem or explores a unique idea.	The project shows creativity and innovation. It offers an innovative approach to solving a problem or presenting an idea.	The project lacks creativity and innovation. It fails to present innovative ideas or solutions.
<b>Problem Solving</b>	The project effectively addresses a significant problem or challenge. It demonstrates a clear understanding of the problem and offers a viable solution.	The project adequately addresses a problem or challenge. It shows understanding of the issue and presents a solution, though with some limitations.	The project partially addresses a problem or challenge. It lacks depth in understanding or offers a solution that is not fully developed.
<b>Sustainable Development Goals</b>	Comprehensive plans for long-term sustainability, including maintenance, adaptation, and resilience strategies.	Some measures in place for long-term sustainability.	Lack of consideration for long-term sustainability.
<b>Impact and Potential</b>	The project demonstrates significant impact and potential for real-world application or further development. It has the potential to create meaningful change or contribute to its field.	The project shows some impact and potential for application or development. It has potential to make a modest contribution or address a specific need.	The project lacks impact and potential for application or development. It offers little to no contribution or relevance.

1. **Popular Award** – Selected by public vote
2. **Innovation Excellence Award** - Rubrics used to select will be Innovative Idea and Creativity
3. **Future Catalyst Award** - Rubrics used to select will be Impact and Potential
4. **SDG Impact Award**- Rubrics used to select will be Sustainable development goals
